FOUNDING FATHERS FUN FACT

Thomas Jefferson Wasn't a Signer of the Constitution!
 It seems incomprehensible that a big-name founding father like Thomas Jefferson missed out on signing the U.S. Constitution, but he never inked the deal. He was actually absent during the Philadelphia Constitutional Convention in 1787, as he was across the Atlantic Ocean in Paris, France, as the U.S.'s envoy.

JULY 2023 Client Newsletter

MANAGER'S MINUTE

Happy 4th of July, everybody! I hope everyone has a fun and safe holiday celebrating our independence! I plan on enjoying fireworks with my family and friends at my home away from home, Rossburg Acres, on July 1st this year. However, I do know many people are looking forward to the St. Henry Community Picnic happening from June 30th to July 2nd! There will be lots of great music, food, and activities uptown in St. Henry this holiday weekend! Not only is there the St. Henry Picnic this month, but there is also the Country Concert being held in Fort Loramie from July 6th to 8th. Many of us here at the shop are looking forward to seeing all the artists perform this year!

Vacation season is among us, and I hope everyone is enjoying their travels to their favorite vacation destinations! My family enjoyed our trip to Norris Lake this summer; it was relaxing and a much-needed break from the shop. Working with family is awesome, but it is nice to be away from the shop for a while and spend time away from work as a family. With that being said, I am looking forward to seeing what the rest of the summer will bring!

Sincerely,
 Ted Heitbrink

CONE ZONE SEASON CAN BE TOUGH ON VEHICLES

Summer is the main season for “cone zones,” road construction where you will likely hit a bump or two or come across loose stones and other hazards. These rough road conditions can be tough on a vehicle’s steering and suspension system and can throw out the alignment, while loose stones have the potential to damage the vehicle’s exterior or windshield, according to the non-profit Car Care Council.

“Even the most careful motorist, who is driving slowly and carefully through road construction, is bound to hit an unexpected bump or other road hazards,” said Nathan Perrine, Executive Director, Car Care Council. “Be sure to pay attention to your car and if you think there’s a problem, have it taken care of as soon as possible.”

The main symptoms of steering and suspension or wheel alignment problems are uneven tire wear, pulling to one side, noise and vibration while cornering or loss of control. The council recommends that motorists have their vehicles checked out immediately if any of these symptoms exist, as steering and suspension systems are key safety-related components and largely determine the car’s ride and handling. Regardless of road conditions, these systems should be checked annually and a wheel alignment should be performed at the same time.

Motorists also should do frequent visual checks of their vehicle’s exterior and windshield to identify any chips, dings or cracks. These are small problems that can become costly repairs and safety hazards if they aren’t taken care of immediately.

For information to help you keep your vehicle running dependably and protect its long-term value, visit the Car Care Council’s website at www.carcare.org.

A BRIEF HISTORY OF INDEPENDENCE DAY

When the initial battles in the Revolutionary War broke out in April 1775, few colonists desired complete independence from Great Britain. By the middle of the following year, however, many more colonists had come to favor independence, thanks to growing hostility toward Britain.

On June 7, 1776, when the Continental Congress met at the Pennsylvania State House (later Independence Hall) in Philadelphia, Virginia delegate Richard Henry Lee introduced a motion calling for the colonies’ independence.

On July 2nd, the Continental Congress voted in favor of Lee’s resolution for independence in a near-unanimous vote (the New York delegation abstained, but later voted affirmatively).

On July 4th, the Continental Congress formally adopted the Declaration of Independence. Though the vote for actual independence took place on July 2nd, from then on the 4th became the day that was celebrated as the birth of American independence.

Interestingly, John Adams believed that July 2nd was the correct date on which to celebrate the birth of our nation, and would reportedly turn down invitations to appear at July 4th events in protest!
